

BROWER'S TOP HATCH INCUBATOR

Our Top Hatch Incubator Gives You A Complete Design - Standard Circulated Air, Automatic Turning For Most Species, Standard Clear Top, Plenty of Height

Clear Top Standard:
Total visibility to eggs. No small windows covered with condensation.

Readily Available Heat Source:
Replacement heat is as far away as your nearest bulb retailer - 60 watt, candelabra base.

No Extension Ring For Larger Eggs:
7 inches of clearance.

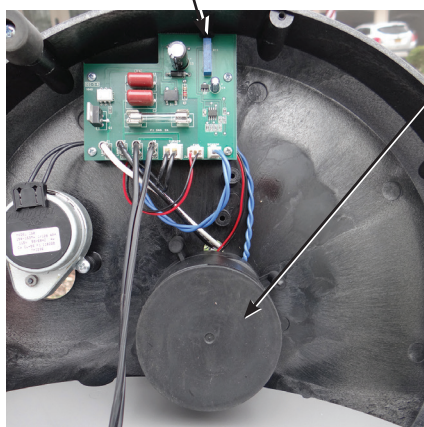

Newly Hatched Chicks Safe From the Heat Source:
No exposed elements.

Universal Turning Rack:
Can be inverted to accommodate small eggs or larger eggs. No need to buy separate cups for different species. Rack does not need to be removed for hatching.

Self Diagnostic Heat Source:
You always know you have heat - just look at the light.

Even Heat:
Our Tech-Temp control quickly adjusts to temperature changes. No hot spots.

Easy Cleanout:
Snap closure easily removed to clean tower.

Hygiene:
Our tray is removable and dishwasher safe at low heat.

Continual Air Exchange:
Standard fan gently mixes heated air which billows throughout the tray.
