Brower gets the fundamentals correct—superb & simple design. 
Premium galvanized steel, USA craftsmanship.

Model 401RO: Single 13 1/2 (34.3) inches deep; Front Height 16 (40.6); Back Height 22 (55.9). Hanger brackets add 5/8 inch (1.6) to all heights.

Model 404B: 20-30 birds, 4 in 2 tiers, 26 (66.0) inches high x 34 (15.5) inches long. 34 1/2 (87.6)

Model 406B: 30-40 birds, 6 in 2 tiers, 36 3/4 (93.3) inches high x 40 (18.1) inches long.

Model 408B: 40-50 birds, 8 in 2 tiers, 48 3/4 (123.8) inches high x 48 (21.8) inches long.

Model 410B: 50-60 birds, 10 in 2 tiers, 60 (152.4) inches high x 64 (29.1) inches long. 34 1/2 (87.6).

Brower gives you what you need at a very competitive price. All exposed edges hemmed to prevent injury. Ventilation holes for excellent air flow. Removable nest bottoms for easy cleaning and litter replacement. Double bolted perches to facilitate birds entering the nest and the perches fold up to keep birds out of the nest. Standard hangers. Individual nest pads are available for added comfort and encouraging hens to lay in the nest, not on the floor. Easy to assemble.

All Of Our Models Can Be Front Roll Out, Back Roll Out - OR BOTH!

Eggs laid in roll out nest trays stay cleaner. Back roll out nests allow the nest to be mounted with an egg collection aisle where the birds do not have access to the aisle. Nest trays can be used with perch assemblies in the front of the nest only. The backs are not designed for perches. Note: Our single unit, Model 401RO comes standard with a nest tray for either front or back roll out.

Specifications:
See specifications on page 18. Tray and cover extend beyond the nest by about 5" (12.7 cm). Each tray and cover weigh 1.0 lbs. (.45 kg).

Model numbers and Shipping Weight:
- 404BRO - 39 lbs. (17.7 kg)
- 406BRO - 47 lbs. (21.4 kg)
- 408BRO - 57 lbs. (25.9 kg)
- 410BRO - 75 lbs. (34.1 kg)

Nest Tray Model TRA10
The tray fits all of our nests. Each tray has a clear cover.

Egg Basket- Plastic Coated Model 215
Made of heavy wire securely welded at every joint. Continuous feet around base allow air flow under basket for fast cooling of eggs. Thick, plastic coating cushions eggs and reduces breakage...will not mark eggs. Will not deteriorate with detergents or extreme temperatures. Holds 15 dozen chicken eggs. Height: 9" (22.9 cm), Diameter: 14 1/2" (36.8 cm) Top: 10" (25.4 cm) Bottom. Weight: 1.4 lbs. (.64 kg).

Nest Pad Model 410BNP
Encourage hens to lay in the nest (instead of on the floor) by providing more comfort. 12" (30.5 cm) x 12" pads are slotted for good air circulation and for allowing droppings to fall through the pad. Reduce labor and possible contamination of litter in the nest. UV protected poly material can be washed and disinfected. 7-10 year life. 1/2" height.

Transport Coop
Designed for optimal air flow. Stackable. Easily washed and sanitized. High density polyethylene. Shipped knocked down but all snap together components. Assembly takes about 3 minutes with no tools. Door 12 1/2" wide x 16 1/2" long (31.8 cm wide x 42 cm long). Hand holds. 10 broiler capacity.

Model PCF1 Fowl Catcher
Hook has smooth no-snap edges, bent for a sure catch. Plastic (no splinter, no chap) 4 1/2" (11.4 cm) handle is securely attached to heavy gauge wire shaft. Length 49 1/4" (125 cm). Weight 24 lbs. (10.9 kg), pack 12.

Made of top quality celluloid rod with a full half overlap. Resilient, springy, non-brittle. Three sizes - 5/16" (7.9 mm), 9/16" (14.3 mm), 11/16th" (17.5 mm) (inside diameter). Five colors - blue, green, red, white and yellow. We also can provide other sizes ranging from 1/4" for baby chicks and quail to 1" for turkey toms and geese. Also available are double coil leg bands. Note: There may be minimum order quantities on non-stocked leg bands.

BACK ROLL-OUT COLONY NEST

CLEAN EGGS  LESS BREAKAGE  FEWER CHECKS
BECAUSE BIRDS HAVE NO ACCESS TO COLLECTION

It’s easy to go down the center aisle to service the belt or the collector.

Note: A center aisle is not the only option. We would be glad to work with you exploring other options depending on your building layout.

There is visibility to the egg belts at all times. If there is an obstruction, you know exactly where to go to resolve the problem.

Also, removable poultry netting can be placed between the roll out egg belt flooring on each side. The netting prevents birds from getting access to the egg belts. This allows you to increase your effective floor space since birds can use the center aisle way space.
